A feature-rich approach

Discover the outstanding capabilities of our Veeva Vault Edition, carefully crafted on the robust dqMan platform. Revealing the true power of VQL (Vault Query Language) and MDL (Metadata Definition Language), our revolutionary software is designed to enhance user accessibility and streamline your operations, alongside the comprehensive functionalities offered by Veeva Vault Admin.

VQL editor

Easy creation of queries with syntax highlighting, autocomplete for types, attributes and function values, syntax help, and query format options

Script execution engine

MDL scripts can be generated and executed directly in the dqMan session window, allowing you to create, drop, or modify configuration objects

Inline editor for query results

The document and object metadata can be edited directly in the result grid, supporting multiline editing of single attributes and column editing of repeating attributes

0

Vault navigator

The document type and object navigator provides quick access to viewing and dumping the fields and relation definitions

Object navigator

Object data-based browser for attribute data and references to business objects, users, permissions, relations, picklists etc.

Cache query results

The query results can be cached and utilized to generate aggregated reports by using advanced SQL syntax (GROUP BY, HAVING, MAX, MIN, COUNT)

Query results actions

The query results can be exported to Microsoft Excel. For all results, multiple actions are possible: view content, renditions, attachments, and relations, delete document versions etc.

Favorite & history management

Favorite queries can be stored and retrieved easily, histories of executed VQL or API commands are available and can be accessed easily

Flexible pricing options

In order to meet all demands, we offer multiple dqMan license packages for different team sizes and different license periods. They all have one thing in common: a fair pricing structure and the option to switch to a higher or lower tier if required.

Duration	Single & small teams	Medium teams	Large teams	Enterprise
	Up to 5 users	Up to 10 users	Up to 20 users	Above 20 users
12 months	39,99€	29,99€	19,99€	Individual
24 months	37,99€	28,50 €	18,99€	Individual
36 months	35,99€	26,99 €	17,99€	Individual

All prices are applied per user per month and are payable in a one-time payment.

Valuable benefits for your work routine

Increased productivity

Benefit from an effective way of using VQL & MDL to solve daily tasks

Quality improvements

Fix data & configuration issues by utilizing dqMan's functionalities

Time savings

Save valuable administration time through scripting & automation

Experience the power of dqMan

Are you ready to unlock the full potential of your Veeva Vault applications with dqMan? Then either request your 14-day Trial Version today and experience the power of our modern, intuitive software yourself or go straight for one of our full license packages!

Get Trial Version

Request your free Trial Version today and test our feature-rich Veeva Vault administration solution thoroughly for 14 days!
